

Family 238. PLUMBAGINACEAE

Revision:

Steenis, CGGJ van. 1949. Plumbaginaceae. Flora Malesiana series 1, 4: 107-112.

1. *Plumbago* Linnaeus

1. *Plumbago indica* L. in Stickm., Herb. Amb. (1754) 24; --Merr., Fl. Manila (1912) 362; EPFP 3 (1921) 275; --Steen., Fl. Males. ser. 1, 4 (1949) 111, Fig. 2.

Plumbago rosea L., Sp. Pl. ed. 2 (1762) 215; --Merr., Fl. Manila (1912) 362.

Widely distributed in the Old World tropics. Probably native in SE Asia. Malesia except Peninsular Malaysia, Borneo and New Guinea.

2. *Plumbago zeylanica* L., Sp. Pl. (1753) 151; --Merr., Fl. Manila (1912) 362; EPFP 3 (1923) 275; --Steen., Fl. Males. ser. 1, 4 (1949) 109.

Old World tropics to Hawaii, possibly indigenous only to SE Asia. Throughout Malesia (except Borneo and the Moluccas).

Cultivated, non naturalized taxa:

***Limonium sinuatum* (L.) Mill.**, Gard. Dict. Ed. 8 (1768) no. 6; --Steen., Fl. Males. ser. 1, 4 (1949) 112; --Statice sinuata L., Sp. Pl. (1753) 276.

Native of the Mediterranean.

***Plumbago auriculata* Lam.**, Encycl. 2 (1876) 270; --Merr., Fl. Manila (1912) 361; EPFP 3 (1921) 275; --Steen., Fl. Males. ser. 1, 4 (1949) 111.

Native of S Africa. A common ornamental in Malesia, up to 1100m. Not naturalized.
